Grant Thornton

Technology Advisory Services

Driving digital resilience, transformation, and trust.

Transforming Technology into Business Value

As Saudi Arabia accelerates its digital transformation under Vision 2030, organisations are under increasing pressure to innovate while maintaining strong governance, security, and performance. In this dynamic environment, technology is no longer just an enabler; it is a core driver of sustainable growth and competitive advantage.

Our Technology Advisory services are designed to help organisations unlock the full value of their technology investments. We support businesses in building resilient, future-ready digital ecosystems that enhance operational efficiency, strengthen cybersecurity, and enable informed decision-making.

Our multidisciplinary teams work closely with leadership to design, implement, and optimise technology strategies

aligned with business priorities and local regulatory requirements. From digital transformation and IT governance to cybersecurity and transaction support, we deliver practical, execution-focused solutions tailored to the Kingdom's evolving business landscape.

By combining global expertise with deep regional insight, we empower organisations to navigate complexity, mitigate risk, and turn technology into a strategic advantage.
